

374th Medical Group Services

The 374 MDG is adjusting their posture to maintain mission assurance and unit readiness. **Our COVID testing hours are expanding and, AS ALWAYS, the Urgent Care and 24-hr services will remain open. We ask for your patience and understanding as we continue to serve Team Yokota.**

Facemasks are mandatory for all personnel entering the MDG. Exceptions are for patients under 2 years old or patients in respiratory distress if the mask will hinder breathing.

Escort/Child Restrictions: Appointments will be limited to the patient and a single necessary escort. We request parents with multiple children limit their visit to just the patient and a single parent or legal guardian.

COVID Testing (at the MDG Tent):

Travel/ Exit ROM Testing: 0800 – 0930

PUI/ Close Contact Testing: 1000 – 1130; 1300 – 1430

If you are experiencing any of the following symptoms, fever, cough, or shortness of breath, or at least TWO of the following, chills, muscle pain, diarrhea, headache, sore throat, congestion, vomiting, or new loss of taste and smell, **DO NOT** go directly to Urgent Care. Contact the Medical Group COVID-19 Triage Hotline at 225-8864, Opt 7.
