

**DEPARTMENT OF THE AIR FORCE**  
**374TH AIRLIFT WING**

**26 April 2021**

MEMORANDUM FOR ALL PERSONNEL ASSIGNED TO OR STATIONED ON YOKOTA AIR BASE, JAPAN

FROM: 374 AW/CC

SUBJECT: Renewed Public Health Emergency Protective Measures

1. Continued transmission of COVID-19 cases in Japan present a risk to our population. Accordingly, pursuant to DoD Instruction (DoDI) 6200.03, "Public Health Emergency Management (PHEM) Within the DoD," dated 28 March 2019, and Air Force Instruction 10-2519, *Public Health Emergencies and Incidents of Public Health Concern*, dated 10 December 2019, I have declared a Public Health Emergency under my authority as the installation commander. The following measures are **mandatory** for all personnel present on or assigned to Yokota Air Base including but not limited to U.S. military members, U.S. civilian employees, all dependents, DoD retirees, Host-Nation (HN) employees, contractors, and any other persons accessing this installation. This order also includes those personnel assigned to mission partners/tenant units. These measures will go into effect **immediately** and remain in effect until **Saturday 24 July 2021** unless renewed and republished or sooner terminated by me or my successor. I will review this policy at least every 15 days to determine if these measures need to stay in place or be changed in any manner.

2. **Local Area Definition:**

a. To protect our personnel and families from the continued transmission of COVID-19, I have established a local area within Japan. The local area is currently defined as the country of Japan **however SOFA status personnel should be aware there are several restrictions currently in place in the prefectures of Tokyo, Osaka, Kyoto, and Hyogo due to a Government of Japan State of Emergency declared from 25 April 2021 to 11 May 2021. Maps that define these prefectures can be found at <https://www.yokota.af.mil/COVID-19/> and attached to this policy. SOFA status personnel may still enter these areas but are expected to comply with COVID mitigation measures created by the Government of Japan in these prefectures. Many businesses in these prefectures may be closed including large department stores, shopping malls, theme parks, movie theaters, or museums. Other essential services may still be open but with shortened hours including restaurants, public transportation, schools, and grocery or convenience stores. Members who currently live in one of these named prefectures may continue to travel to and from their residence for purposes of going to work or for any other purpose currently approved in this policy. Members are also authorized to visit other military installations within the local area; however visiting installations that are currently in HPCON Charlie status requires prior approval from the first O-6 in the member's chain of command.**

b. All DoD uniformed members must remain in the above defined local area while on duty, on leave, on liberty, or on pass unless traveling outside the local area pursuant to the requirements in paragraphs 4 and 9. DoD uniformed members departing Japan must be on mission-essential travel (such as TDY or PCS) or in a leave status. SOFA status members of the civilian component and SOFA dependents are highly encouraged to remain within the defined local area and any departure from that local area will subject them to Restriction of Movement policies upon return.

3. **Local Area Limitations:** Prohibited non-essential services and activities **within any prefecture in Japan** include bars, night clubs, karaoke clubs, social clubs, or any facility with a potential for crowds, close contact, or closed spaces where COVID prevention measures cannot be maintained. Off-base employment should be conducted in a safe manner using the same social distancing procedures used on base. For off-base schools and daycare facilities, parents should be aware of school policies and make a personal decision based on risk involved with the facility used. While at another U.S. installation in Japan, Yokota members are expected to comply with that installation's COVID policies. While engaging in non-essential services and activities members must wear masks, sanitize regularly, and practice physical distancing.

4. **Mission-essential travel:**

a. Mission-essential travel outside the local area is authorized during the period of this order. Mission-essential travel includes but is not limited to medical appointments, official duty at another military installation, and permissive TDY for house-hunting. If there are questions on what qualifies as mission essential travel, please consult your chain of command.

b. Government funded TDY travel for 374th Airlift Wing personnel will be approved by the first O-6 in the traveler's chain of command. All TDY travel will require this approval unless the purpose for travel is one of the 12 exemptions listed on the Secretary of Defense's 15 March 2021 policy titled "Update to Conditions-based Approach to Coronavirus Disease 2019 Personnel Movement and Travel Restrictions."

5. **Public Transportation:**

a. Public transportation may be used within Japan under the following conditions. Air travel conducted entirely within the country of Japan is permitted. There is no restriction on accessing airports within Japan. Shinkansen (Japanese bullet train) travel throughout Japan is permitted. Travel by taxi is still allowed. While on any form of public transportation members must wear a face mask at all times with the exception of eating a meal on an airplane or Shinkansen.

b. Use of local trains and buses is permitted at all times. Members must be cautious of overly crowded trains during rush hour and to the extent possible plan their trip accordingly. If members notice a train is overly crowded they are recommended to wait for another train. While on any local train or bus members must wear a face mask at all times.

6. **Base Visitation Policy:**

a. All personnel possessing a DoD ID card or other appropriate access card to Yokota Air Base can continue to access the installation. Contractors must be on an Entry Access List or be

escorted by an authorized sponsor solely to fulfill their contractual obligations. Contractors are only authorized to visit their designated place of performance.

b. Adult DoD ID card holders can sponsor up to 5 guests per adult DoD ID card holder as a personal visitor on Yokota Air Base. Adult DOD ID card holders are defined as those card holders age 18 years or older. Adult DoD ID card holders can sponsor up to 8 guests for visiting Tama Hills Recreation Area by signing in at the security station on Tama Hills.

c. In order to sponsor a guest onto Yokota Air Base, the adult DoD ID card holder must go to the Visitor Control Center between the hours of 0600 and 2200, seven days a week to obtain a pass. DoD ID card holders will be able to attain a 24 hour pass for their sponsored guest and must be with their guest at all times while on Yokota Air Base. Official visitors are exempt from these limitations if they are escorted by U.S. or Japanese military personnel and/or U.S. civilian employees to meet with personnel for official duties. Exceptions to this policy for personal visitors will be routed to the first General Officer/SES in the chain of command for tenant organizations that have a General Officer/SES on base. For all other units, I will be the approval authority. An exception to policy form was previously distributed.

#### **7. Social Gatherings:**

a. All social gatherings are currently limited to 10 persons or 3 families in attendance. Exceptions to this rule may be approved by Squadron Commanders (or equivalent for mission partners/joint service personnel). Social gatherings are defined as groups of people who are together outside of the work area for non-mission essential purposes. When dining in restaurants or conducting other activities not prohibited in paragraph 3, personnel should ensure they are maintaining social distancing and wearing cloth masks even when in groups of less than 10 people unless they are only with immediate family members.

b. An exception to this limited social gathering rule is allowed for attendance at off-installation religious services so long as attendance can be conducted in a safe manner. Personnel who find themselves in an area with a potential for crowds, close contact, or closed spaces where COVID prevention measures cannot be maintained, should immediately remove themselves from that location. If there are questions on social gatherings, please consult your chain of command.

#### **8. Physical Fitness Activities:**

a. Members are encouraged to engage in physical fitness activities where social distancing and cleaning of equipment can be maintained. However, there still remains a risk in group physical fitness activities where masks are not worn, social distancing cannot be maintained, or equipment is shared between multiple individuals. Accordingly, all personnel will wear a face mask at all times while in base fitness facilities including while engaging in physical exercise. The only exception to wearing a mask in base fitness facilities will be for members actively engaging in cardiovascular exercise on a cardio machine, momentarily removed to hydrate, or while members are in the sauna/steam room or showers. Members conducting outdoor fitness activities on or off-base may remove masks provided they maintain 6 feet of distance from non-family members.

b. Moreover, the following group fitness activities without participation limits are permitted where masks are worn or social distancing is maintained: volleyball, baseball, softball, tennis, and gymnastics. All equipment should be thoroughly cleaned after use in a permitted activity. Modified practice of group fitness activities (i.e. individual skill drills, conditioning, forms practice, shooting practice, etc.) may take place where strict social distancing is maintained or masks are worn and when there is no sharing of equipment or thorough cleaning of equipment is maintained.

c. All group fitness activities not mentioned above may be conducted on or off-base so long as participants comply with the following directives. Group fitness activities must be limited to 10 participants unless it is a FSS approved activity such as intramural sports, adult fitness classes, or youth sports/fitness activity. All participants in group fitness activities must wear a mask covering their nose and mouth while involved in the activity and within six feet of other participants or while sharing sports equipment. No travel sports are currently permitted, with the exception listed in paragraph d. in this section, meaning that teams cannot travel off-base for competitive events or practice and Yokota Air Base groups cannot invite teams from off-base onto the installation. All equipment should be thoroughly cleaned after use in a permitted activity. These directives will be continually evaluated and adjusted as required.

d. Department of Defense Education Activity (DoDEA) schools are permitted to engage in travel sports activities with other DoDEA participating schools so long as: (1) the competitive event or practice is held on Yokota Air Base or another DoD installation; (2) the competing DoDEA school has agreed to participate in the event and the host DoD installation has agreed for it to take place there; (3) all participants comply with the approved DoDEA COVID mitigation plan for that sporting activity; and (4) no overnight travel is required for the competitive event or practice.

e. Squadron Commanders (or equivalent for mission partners/joint service personnel) may approve unit Physical Training events beyond the 10 participant limit. All participants in unit Physical Training events must wear a mask covering their nose and mouth when within a base fitness facility, within six feet of other participants, or while sharing sports equipment. All equipment used during unit Physical Training events must be sanitized after use.

9. **Leave:** Leave to a personal residence or in the local area may be approved by a first line supervisor. **Non-mission essential travel within the prefectures of Osaka, Kyoto, or Hyogo is currently limited to approval by a squadron commander or equivalent after an appropriate risk assessment until 11 May 2021.** Leave for military or civilian employees outside of Japan may be approved by their squadron commander or equivalent. Approval authorities are required to conduct a risk assessment of the travel with the member and verify the HPCON status of a leave location before approving a leave request. In conducting risk assessments approval authorities will consider whether the individual is at increased risk of severe illness of COVID-19, the status of community spread of COVID-19 at the travel destination, if the traveler(s) have completed a COVID-19 immunization series plus 14 days, if the traveler(s) has exhibited any signs or symptoms of COVID-19 within the previous 14 days, and if the traveler(s) is/are familiar with how to self-monitor and what actions to take if they develop symptoms of COVID-19. If approval authorities have any questions on risk assessments they should speak to a public health professional. Space Available flights are currently only

approved with an Exception to Policy request signed by **the first O-6 or civilian equivalent in the chain of command as delegated by the Secretary of the Air Force.**

10. **Mask wear:**

a. Consistent with guidance from the Secretary of the Air Force, all individuals on Yokota Air Base or Tama Hills Recreation Area will wear cloth face coverings when they cannot maintain social distance. This does not include inside a member's personal residence or while in private lodging in the defined local area. Children 36 months old and younger are generally not required to wear a face mask on or off-base. Children in Child Development Center programs are also not required to wear a face mask while in the CDC. Multiple individuals riding in the same vehicle are required to wear face masks; however, this does not apply to riding in a vehicle with only immediate family members.

b. Additionally, all personnel who wish to access Yokota Air Base or Tama Hills Recreation Center shall wear masks when in public off-installation in the defined local area. Japanese citizens commonly wear masks in public settings and our personnel should also do so off-installation at this time of heightened COVID response to prevent the spread of infection and to promote a responsible image to the host nation civilian population. Additionally, wearing masks off-installation is a preventive and risk mitigation measure that can allow the increase of off-installation activities in a safe manner. Members may temporarily remove their masks while actively consuming food at a restaurant provided they wear a mask into the restaurant and put the mask back on when they are finished with their meal. Any member declining to wear a mask in public during the period of this order and not under one of the exceptions mentioned above may be temporarily denied access to the installation or debarred.

11. **Contact Tracing:** Daily contact tracing logs are required for all military members, civilian component, SOFA-status dependents, and local national employees. Logs will only be reviewed by medical professionals or medically trained teams. Log entries are required if the contact meets the following conditions:

a. Being within approximately 6 feet (2 meters) of an individual for longer than 15 minutes cumulative within a 24 hour period with or without a mask on (Off-base - record the location and duration of your visit);

b. Anyone with whom you had physical contact while caring for, living with, or visiting (with the exception of your immediate family living in your home);

c. Anyone with whom you shared a health care waiting room (please denote time, name of clinic, duration, and location of waiting room; no need to write down all patients names); and

d. Anyone having direct contact with an individual's secretions (e.g. being coughed or sneezing on).

12. Thank you for your commitment to ensuring the safety and security of everyone. I recognize these measures place burden on our families; however, they are absolutely essential to protecting our entire community. It requires a total commitment from everyone in order to reduce risk to all personnel who live and work on the installation.

13. If there are any questions on these measures, please consult your chain of command or the installation Public Affairs office at [374aw.pav3@us.af.mil](mailto:374aw.pav3@us.af.mil).

ANDREW J. CAMPBELL, Colonel, USAF  
Commander
